-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters 1, 2, 3, 6, 11 have been used to designate different parts in different embodiments. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claims 5, 7-8, and 12-16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention as previously set forth.

It is noted that applicant elected the subject of Group II, fig. 2. Applicant noted that the embodiment of Figs 5-7 all depend from Fig. 2. This is not persuasive since Figure 2, as shown, having a totally construction from the embodiment shown in Figs. 5-7.

Claims 12-16 are withdrawn because the embodiment of Fig. 2 does not show the pieces in lockable manner.

2. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation "inflexible curved member" is confusing. It seems that the device 1 in Fig. 2 has a plurality of hinge points allowing the curved members 1 to flex around the shoulder.

Regarding claim 6, it seems from Fig. 2 is that the various sections are joined by integral hinges.

3. Claims 1-4, 6, 9, 10, 11, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Endo (5590826). Endo teaches a pair of attachment devices comprising two curved members 20 and 30 in Fig. 16a arranged to stiffen substantially the sections of the shoulder straps. With respect to the curved members being used with the shoulders strap of a backpack, it is regarded as an intended use. The claim recites only two curved members and Endo shows the two curved members as claimed.

Regarding claim 6, note the inflexible curved members 10P joined to one another by portions 18 in Fig. 13b. The claims do not exclude the curved members to be joined by integral hinges.

4. Claims 1-4, 6, 10, 11, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Dawson (3547322). Dawson teaches two curved members 15 as claimed. With respect to the curved members being used with the shoulders strap of a backpack, it is regarded as an intended use. The claim recites only two curved members and the Dawson shows the two curved members as claimed.

5. Claims 1-4, 6, 9, 10, 11, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Shallman (4911346). Shallman teaches two curved members 18a and 18b as claimed. With respect to the curved members being used with the shoulders strap of a backpack, it is regarded as an intended use. The claim recites only two curved members and the Shallman shows the two curved members as claimed.
